

## A Christmas Dream

I left Santa a note by the Christmas tree  
And one by the fire that's easier to see  
Santa I hope you can read  
Santa this is the list of the things that I need  
Hope you've got everything  
Thanks Eloise

Nanny stretches and yawns as she looks at the time  
What are we doing up when we're tired, tired, tired  
Think what tomorrow will bring  
Quickly hop into bed Eloise, not a peep  
Let's close our eyes and go to sleep

Soon I fell asleep in a Christmas dream  
Steaming hot pudding with extra cream  
Reindeers with sunglasses on  
Dressed with mittens on antlers and mufflers from Mars  
Reindeers skating on twinkling stars

Santa chuckled and said "Come on boys  
Let's dash off to The Plaza with Eloise's toys  
Always loved the hotel  
'specially sharing with Nanny a Christmas punch  
Before heading back to the North Pole for lunch"

And when I awoke he had come and gone  
Hoped he'd read my message and hadn't got it wrong  
Through the trees in the park  
We could see all the reindeer as they made away  
Including the tail light on Santa Claus' sleigh

See all the reindeer as they made away  
Including the tail light on Santa Claus' sleigh
